NOTE:

SUBJECT: DDI Strength Update

1. After ten bi-weekly periods, the DDI is still about below what would be expected to gradually achieve their authorized ceiling by the end of the fiscal year. The DDI manpower lag can be traced to the following factors:

DDI Strength (17 February 1984)

2. It should be noted that, in accordance with the attached DDI projection, we see a need for DDI EODs in the remainder of the fiscal year to get them up to their authorized ceiling.
